

infant

Subscribe today!

The **essential** journal for neonatal and paediatric healthcare professionals

Take out a two year 2012 printed personal subscription for just £88 (UK) or £108 (overseas) and we'll give you **FREE online access** to the journals you have bought

Infant is an invaluable source of neonatal and paediatric information and an important medium for subscribers to keep up-to-date with the practice of their medical and nursing colleagues.

Published bi-monthly since January 2005, the journal contains authoritative articles with a clinical or practical bias written by experts in their field. Comments from some of our readers:

“ I read *Infant* journal more often than other more academic journals – it has some really useful articles.”

“ When study leave for sending our new staff on courses or to conferences is severely limited, I think encouraging staff to take ownership of their own development through such valuable tools as a subscription to *Infant* is crucial.”

“ *Infant* highlights the paediatric team spirit by publishing high quality articles written and read by nurses and doctors.”

Take advantage of our special subscription offer online at www.infantgrapevine.co.uk

Alternatively fill in the form overleaf, email subscriptions@infantgrapevine.co.uk or call 01279 714511.

Want to be kept informed about conferences, study days and the latest jobs in the neonatal and paediatric field? Request a free copy of *Infant Grapevine* sent to your home in the months between issues of *Infant* (UK only), using the form overleaf.

Infant is brought to you by Stansted News Limited, the UK's leading publisher of neonatal journals.
